DESIGN STYLE

When it comes to design philosophy, avana is not bound by any grand idealisms or specific style inclinations. It is key to design relevantly. The design is front and foremost, contextual, in such a way that it fulfills all the necessary requirements: it fulfills the client's needs, relevant to its surroundings, has aesthetic values, balanced with the environment, and is possible to be realized. By working with clients to understand their needs, budget requirements, and site conditions, rather than providing readymade, conventional solutions, avana is able to adapt to the needs of clients, regardless of the nature of their project.

avana's successful completion of projects affords the firm a host of return clients, it illustrates the reliance of clients on avana's expertise, engaging the practice in multiple design projects.

TALENTS

avana team consists of professionals with creative and idealistic minds, committed to design excellence, innovation, and sustainability, to look for and create solutions for each project. Best design occurs when individuals come together, challenging each other to invent new techniques, and search for new expressions. In avana, passionate architects work alongside the most experienced hands, blending wisdom with fresh invalidation.

In top management level, avana consisted of skilful leaders who have architectural knowledge in conceptual as well as technical and coordination. The management board guides the strategic direction of practice.

USTAINABLE DESIGN

As an architecture consultant, avana fully recognize the important role in preserving and protecting the environment.

It is important to develop environmentally-friendly architecture that encourage a green lifestyle.

CERTIFICATIONS

avana and its personnels are registered and certified in their respective areas, both in corporate and technical legal aspects.
